- This document outlines what is covered in the workshop: Brightspace 11 - Using and Understanding Brightspace Data
- It lists the syllabus, together with a link which covers that particular topic / task
- Its purpose is to act as a refresher for staff who attend the Brightspace 11 workshop.
- It also operates as an alternative to the workshop for those staff who cannot attend the workshop.

Brightspace 11: Viewing and Understanding Brightspace Data

Aim of this resource

This resource provides guidance on viewing and understanding Brightspace data. After working your way through this resource, you will have the knowledge necessary to monitor class progress, use the module overview widget, understand various module level reports and track student engagement.

Prerequisites for this resource:

- It is recommended that before working through this resource that you are familiar with Brightspace and have already worked through, or attended the workshops for, Brightspace 1 and 2.

Class Progress Tool	How valuable would it be to have predictive practices in place so that you can access early warning about students who may be getting off track? The Class Progress tool provides lecturers with a high level view of student performance across the entire class and through four indicators of performance all at the lecturer's fingertips making predictive practices and preventing student disengagement a priority. Students may want to use the Class Progress tool to keep track of their module-specific assignments and feedback. Lecturers can use the Class Progress tool to track student progress in the module and prepare progress reports. For more information about the class progress tool please click here or watch this short video tutorial.
Module Overview Widget	The Module Overview widget is a handy **dashboard** to see some analytic data about your module and your students. When you click into your module shell, the widget is usually to be found on the right-hand-side and above announcements. It displays a visualization of weekly course access and provides various. For more information about the Module Overview Widget, please, please click here
Module Level Reports	The Module Overview Widget provides a number of module level reports that provides lecturers with a sense of who and and how their modules are being accessed. For details, please click here and read the **course access** and **tool access** sections in the Module Overview guide.
Class Engagement	Class Engagement is a Brightspace Insights-based tool for instructors that provides a consolidated view of activity, progress, and achievement in a module. The intuitive interface contains filtering, sorting, and searching capabilities, allowing instructors to easily identify top performers and students that might be at risk. The Module Overview Widget provides a detailed breakdown of class engagement for each student. Please click here and read the **class engagement tool** section in the Module Overview guide
